INVESTMENT HIGHLIGHTS

- Category & positioning: only global, vertically integrated player in a fast-growing, high-frequency, demographically attractive QSR segment
- Proven unit economics: 4x weekly visits per customer, top-of-industry repeat intent, 2–4yr franchisee payback across markets
- Mapped value creation: \$5–6M near-term G&A & marketing efficiencies (~50% EBITDA upside) plus margin expansion via master-franchise re-architecture
- Sponsor edge: GP team built and operated a directly comparable global QSR platform — same playbook, now in a brand they control (see right)
- Asymmetric entry: 9.1x adjusted vs. 27–35x for high-growth public comps (Dutch Bros, CAVA, Wingstop); 20–31x for relevant transaction comps
